C.2) Probe Array Parallel to Edge.

Figure 15:

The resistivity is given by (a): \( \rho = \frac{V}{I} \),

\[
G = 2\pi s \cdot D_2 \left( \frac{l}{s} \right) \text{ when }
\]

\[
D_2 = \frac{1}{1 + \frac{2}{\sqrt{1 + (2l/s)^2}} - \frac{1}{\sqrt{1 + (l/s)^2}}} ;
\]

(9)

\[D_2 \left( \frac{l}{s} \right)\] is tabulated and plotted on page 12.
