Thin, circular slice.

\[ e = G f \]

\[ G = \frac{\pi}{2} \left( \frac{1}{L^2} \right) \left( \frac{K}{2.3} \right) \]

Graph showing the relationship between \( \frac{a}{s} \) and \( L \) for different values of \( L \) (2, 3, 5, 5).

Numbers on the y-axis range from 0.10 to 1.00.
